

"David Swanson is an antidote to the toxins of complacency and evasion. He insists on rousing the sleepwalkers, confronting the deadly prevaricators and shining a bright light on possibilities for a truly better world." **Norman Solomon**, author of *War Made Easy: How Presidents and Pundits Keep Spinning Us to Death*

"This book is every American's best defense against the greatest danger we face as human beings: the threat of war. Swanson reveals how American leaders (from both major political parties) have confused the public to create the illusion of consent for endless destruction and slaughter. Behind the fear-mongering, flag-waving and lies of George W. Bush and the blandishments of Ronald Reagan and Barack Obama lies the ugly reality that our leaders have been seduced by political ambition, delusions of military superiority, and the promise of secrecy and impunity to commit otherwise unthinkable crimes." **Nicolas J. S. Davies**, author of *Blood On Our Hands: The American Invasion and Destruction of Iraq*

"While Americans elect leaders whom they trust are honest, truthful and really care about the kids they send to kill for our country, *War Is A Lie* reveals decade after decade the sordid side of our history – that our elected officials lie us into war with stunning and embarrassing regularity and are little concerned about the harm to innocent civilians, much less to members of our own military." **Colonel (ret.) Ann Wright**, co-author of *Dissent: Voices of Conscience*

"David Swanson is a fearless and tireless advocate of peace and works ceaselessly to unmask the mechanisms that keep us perennially at war." **Russ Baker**, author of *Family of Secrets: The Bush Dynasty, America's Invisible Government, and the Hidden History of the Last Fifty Years*

WAR IS A LIE is a thorough refutation of every major argument used to justify wars, drawing on evidence from numerous past wars, with a focus on those wars that have been most widely defended as just and good. This is a handbook of sorts, a manual to be used in debunking future lies before future wars have a chance to begin. For more information visit WarIsALie.org.
