WOMEN FOR PEACE

"While Americans elect leaders whom they trust are honest, truthful and really care about the kids they send to kill for our country, *War Is A Lie* reveals decade after decade the sordid side of our history -- that our elected officials lie us into war with stunning and embarrassing regularity and are little concerned about the harm to innocent civilians, much less to members of our own military." -- **Colonel (retired) Ann Wright**, author of *Dissent, Voices of Conscience*.
